

NEW TRAINING GROUNDS KINZALOW FARM SPRING CITY, TENNESSEE

ETRC held a Workday and Training Day on June 30 on the new training grounds at the Kinzalow Farm in Spring City, TN. A group of 20 members participated in the clearing of two islands located in the middle of the Front Pond. Little did we know until we were ferried over to the islands that they were covered with wild rose briars, blackberry briars, and willows. Weedeaters were no match for the briars which we cleared with brush loppers and manual labor. The brush was piled to be burned at the July 14 training day. Brushkiller or Roundup will then be sprayed to kill the root systems. Thanks to all the workers and especially Brent McCoy and Wes Cosner who furnished their boats to take three passengers each trip across the pond. It took 2-1/2 hours to clear Wild Rose Island and another three hours to clear Briar Patch Island. The islands are approximately 50 feet in circumference. The Back Pond is one-half mile long (500 to 600 yards) and is mowed the entire edge except for one bank near the access gate. Training days are the second and fourth Saturday monthly.

ETRC has received an additional request from Mr. Kinzalow concerning ETRC members using the farm. Mr. Kinzalow has had several bad experiences with groups and individuals using his farm for personal financial gain. ETRC is a State of Tennessee tax-exempt non-profit corporation whose money is used for the members' common good. No individual in the club may profit from any club activities. He asks that there be no use of the farm grounds by professional trainers who take money to train non-owned dogs. All ETRC members may train their own dogs. Mr. Kinzalow is not charging the club any fee to use his farm, however, we may have to furnish additional gravel or labor to maintain road access to the back sections of the farm.

This Saturday, July 14, is a Kinzalow Farm training day. We will have an organized group with set-ups for Beginners/Junior/Senior. Master groups may work separately. The Back Pond is so big we may have one group working at the south end with another group at the north end. Roberta Williams will be at the Front Pond at 8 AM. Bring your chair, water, and training equipment, ATV's are welcome to carry equipment due to the size of the fields and ponds but vehicles cannot drive in the fields, only around the edge.
